Portfolio

SUMMARY

Full-stack MERN developer with hands-on experience building real-time, AI-powered web applications and scalable backend systems. Shipped a live AI health assistant and a Socket.io messaging platform. Comfortable across React, Node.js, REST APIs, and authentication. Seeking full-stack / software engineering roles.

EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2023–2027	B.Tech Civil Engineering	ZHCET, Aligarh Muslim University	7.85
2023	CBSE (Class XII)	Bal Vidya Mandir Sr. Sec. School	93.4%
2021	CBSE (Class X)	Bal Vidya Mandir Sr. Sec. School	88.6%

PROJECTS

HealthMate AI

- Developed an AI-powered health assistant that generates personalized diet plans and recommendations from user inputs.
- Integrated hospital and medical-store search via the Google Places API with an interactive map-based frontend.
- Built with React, Node.js, and REST APIs; deployed live on Vercel.
- Live Demo: <https://healthmate-ai.vercel.app>

Web LLM Model

- Built a browser-based LLM application running inference locally via the WebLLM library with no server-side API calls.
- Optimized the frontend to load and run a small open-source model smoothly in-browser.
- Designed an interactive chat UI for prompt handling and streaming response generation.
- GitHub: https://github.com/VishalDeval/Web_LLM_Model

SocketTexts

- Built a real-time messaging platform supporting multiple concurrent users via socket IDs and chat rooms.
- Implemented bi-directional live communication using Socket.io, React, Node.js, and Express.js with near-instant message delivery.
- Added room-based messaging, instant broadcasting, and a responsive UI across desktop and mobile.
- GitHub: <https://github.com/VishalDeval/Socket.Texts>

EXPERIENCE

Full Stack Developer — TechTrailDMC

Apr 2026 – Present

- Build and maintain scalable frontend and backend systems for travel-tech products.
- Implemented wallet integration, dynamic pricing-calculation modules, and REST APIs powering core booking flows.
- Built responsive user interfaces and optimized application performance across the platform.
- Collaborate with the development team on feature integration, authentication flows, and dashboard systems.

Freelance Full Stack Developer — Startup Project

Jan 2026 – Feb 2026

- Built a role-based Teacher and Admin dashboard for managing users and academic data.
- Implemented user management, analytics, and administrative controls with role-based access.
- Delivered responsive frontend and backend architecture end-to-end using the MERN stack.
- GitHub: <https://github.com/VishalDeval/teacher-and-admin-page>

Google Student Ambassador — Google

Sep 2025 – Jan 2026

- Represented Google technologies at campus events and ran awareness sessions encouraging students to explore emerging tech.

Web Developer Intern — CodSoft

Jun 2024 – Aug 2024

- Developed responsive landing pages and modern portfolio websites.
- Built frontend interfaces using HTML, CSS, JavaScript, and GSAP animations.
- Improved UI consistency and responsive layouts across screen sizes.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Socket.io, GSAP, Tailwind CSS, EJS

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Core Concepts: REST APIs, Authentication, Real-Time Systems, Responsive UI, Backend Architecture

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

- ISRO Cyberspace Quiz – AIR 317 (Space Science & Technology)
- Participant – AMU Hack 4.0 Hackathon
- Adobe Digital Disha Workshop – Digital Literacy and Creativity
